

Dear Friends:

While the study guides and/or other ancillary materials for many of our recent films are available online, most older ones are available only in printed or photocopied versions. If you have purchased one of our programs, you should have received a copy with your purchase. We will be happy to send you additional copies on request. Attached is a complete list of the available support materials, with prices. The list also indicates whether the guide is available online; if it is, we encourage you to download it from our site. To order hard copies, simply fill out this form and return it to us with your check or credit card information. Call us with any questions or to discuss quantity purchases.
